

Amendments to the Drawings:

Submitted herewith are two sheets of formal drawings comprising Figure 1 and 2 which should be substituted for the two sheets of informal drawings, also comprising Figures 1 and 2, which originally accompanied the application as filed and amended.

Attachment: 2 Replacement sheets of formal drawings
 2 Annotated Sheets of informal drawings showing
 changes

REMARKS/ARGUMENTS

It is respectfully requested that the above noted amendments to the specification be made under the provisions of Rule 312. The requested changes are for the purpose of correcting informalities and/or inconsistencies in the language of the specification. Care was taken not to add any new subject matter.

The Examiner's attention is directed to claim 73 as presented in the last amendment submitted in response to the Office Action dated December 9, 2003. As then presented, this dependent claim included a typographical error resulting in the omission of the first word "A". However, as originally filed, claim 73 appeared in its proper format, absent the above-noted typographical error. Accordingly, it is requested that dependent claim 73 be presented in the issued patent in its original form, without the inclusion of the inadvertent typographical error. If a specific amendment to this claim is required, the Examiner is respectfully requested to correct claim 73 by Examiner's amendment. Otherwise, the Examiner is invited to call the undersigned attorney to discuss how to best accomplish the correct, original and intended recitation of this claim.

Due to the nature of the changes requested, including the submission of formal drawings herewith, there will be no additional searching or other significant amount of time required of the Examiner in the review and entering of this Amendment.
